

Nova Scotia Visitor Origin

July 2021

Tourism Nova Scotia gathers and reports tourism statistics on behalf of the tourism industry. These statistics reflect the combined efforts of tourism businesses, organizations, communities, and governments, and include activities by both Nova Scotians and non-resident visitors. There are many factors that contribute to tourism industry performance including events, weather, gas prices, air capacity, currency fluctuations, geo-political circumstances, and industry initiatives, such as marketing. Tourism Nova Scotia is just one organization among many contributing to tourism growth. We support tourism growth through marketing in key national and international markets, support for experience and business development, and visitor servicing.
