# Different Content Management Systems (CMS)

SQUARESPACE

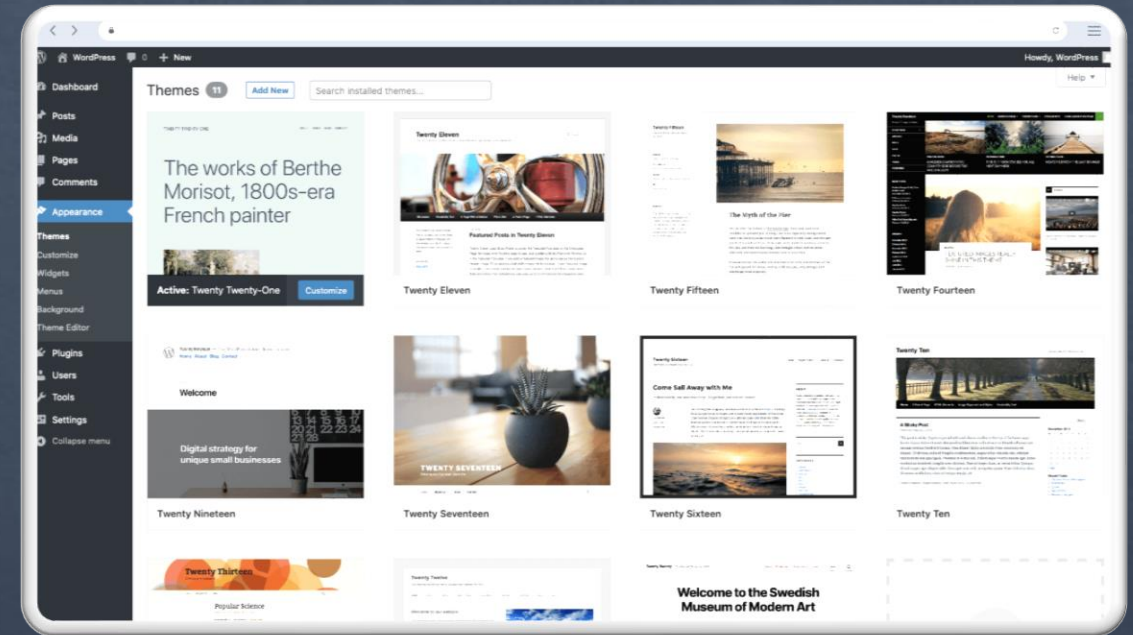

**shopify**

# WordPress (CMS)

WordPress (WP) is an open-source CMS (CMS) that was written in PHP and paired to a MySQL/MariDB database. There are two plugin architecture as well as a templates system. These are referred to in WordPress as Themes. WordPress was initially created to be a blog-publishing platform. However, WordPress has since evolved to include support for other types of web content, such as media galleries, mailing lists, forums, learning management system (LMS), and online stores.

WordPress, one of the most widely used content management systems solutions, is used by 42.8% on the top 10,000,000 websites as of October 2021.

# Pros and Cons of WordPress

## Pros

1. User- Friendly
2. Inexpensive
3. Range of Themes
4. SEO Friendly
5. Mobile Friendly
6. Blogging

## Cons

1. Takes Some Time To Learn
2. Frequent Updates
3. Planning
4. Prone to Threats
5. Difficult Navigation

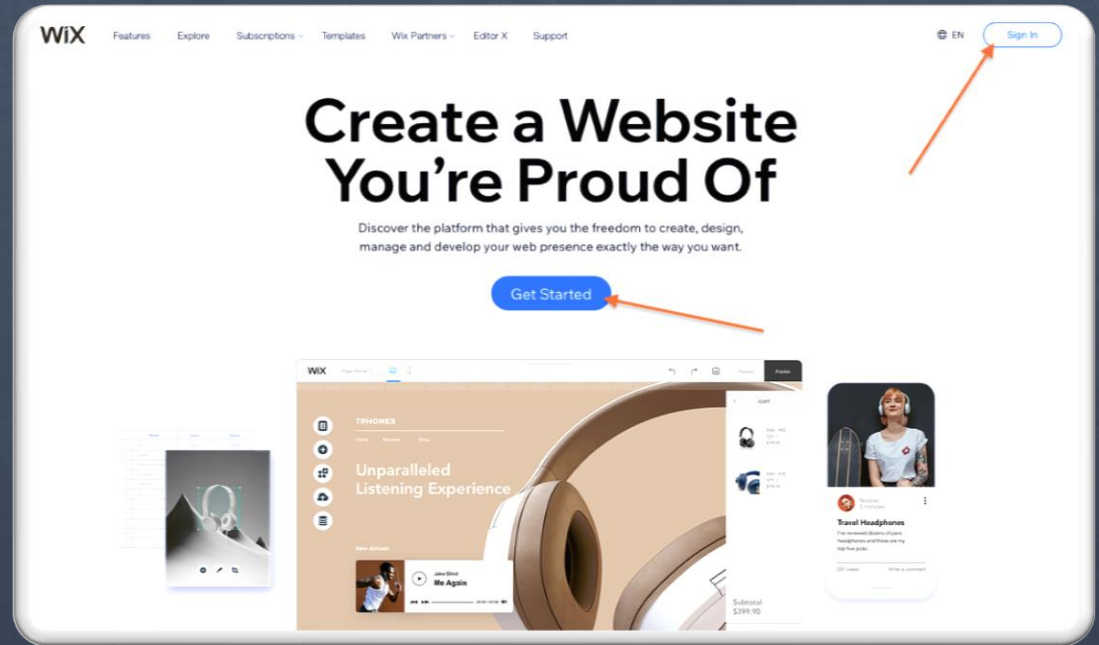

# Wix (CMS)

Wix.com Ltd., an Israeli software company that is publicly traded in the US, provides cloud-based web design services. Wix allows users to create HTML5 websites as well as mobile pages using online drag-and-drop tools.

Wix allows users to add plug-ins to social media, ecommerce, online marketing and contact forms to their websites using a variety Wix-developed or third-party applications.

# Pros and Cons of Wix

## Pros

1. You receive upgraded design templates.
2. The interface is intuitive and useful.
3. You're not locked into long-term plans.
4. Wix takes care of your site security without compromising speed.
5. You receive an all-in-one solution.

## Cons

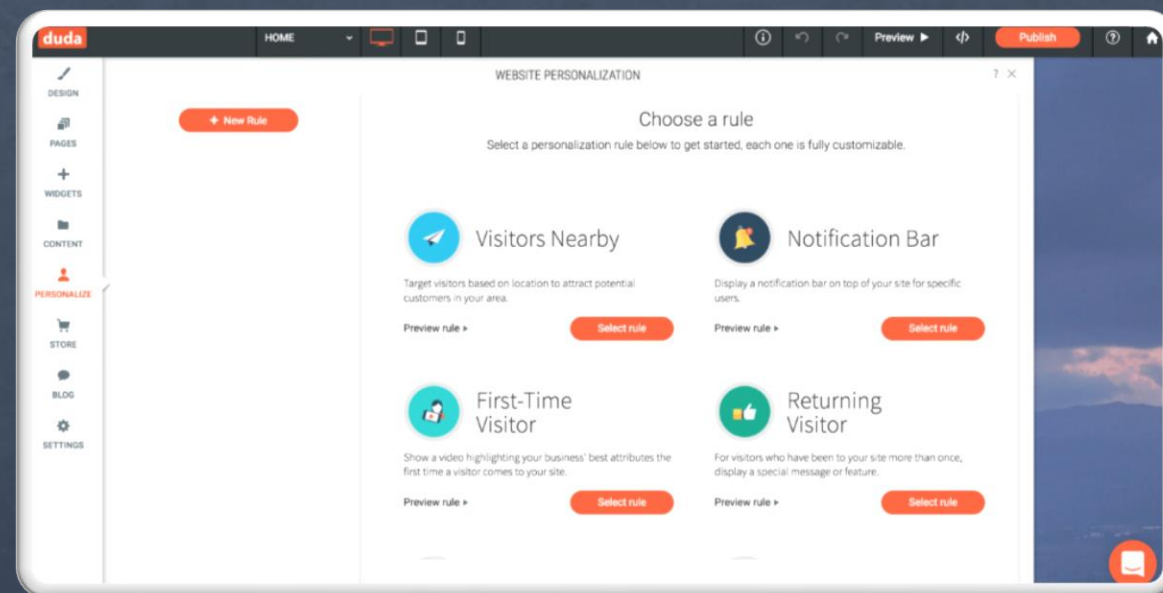

1. The starter plan doesn't remove ads from your site.
2. There are no unlimited plans.
3. Drag and drop designs can limit your creativity.
4. The App store on Wix doesn't really offer apps.
5. SEO is a pain in the neck with Wix.

# Duda (CMS)

Duda is the leading web design platform for companies that offer web design services to small businesses. We serve all types of customers, from freelance web professionals and digital agencies, all the way up to the largest hosting companies and online publishers in the world.

Loaded with powerful team collaboration and client management tools, the Duda platform enables users to build feature-rich, responsive websites at scale. Every Duda website is automatically optimized for lightning-fast loading and great out-of-the-box SEO. Currently, over 14 million sites have been built on the Duda platform.

# Pros and Cons of Duda

## Pros

1. Duda is a simple website builder, offering slick and easy templates to create quick websites
2. Duda has plenty of apps and widgets to use in order to take your website that little bit further
3. Customisation sits comfortably in the middle, offering enough for people at a beginner or intermediate level

## Cons

1. No free pricing plan available, and other pricing plans are quite expensive
2. SEO tools are lacking compared to other website builders

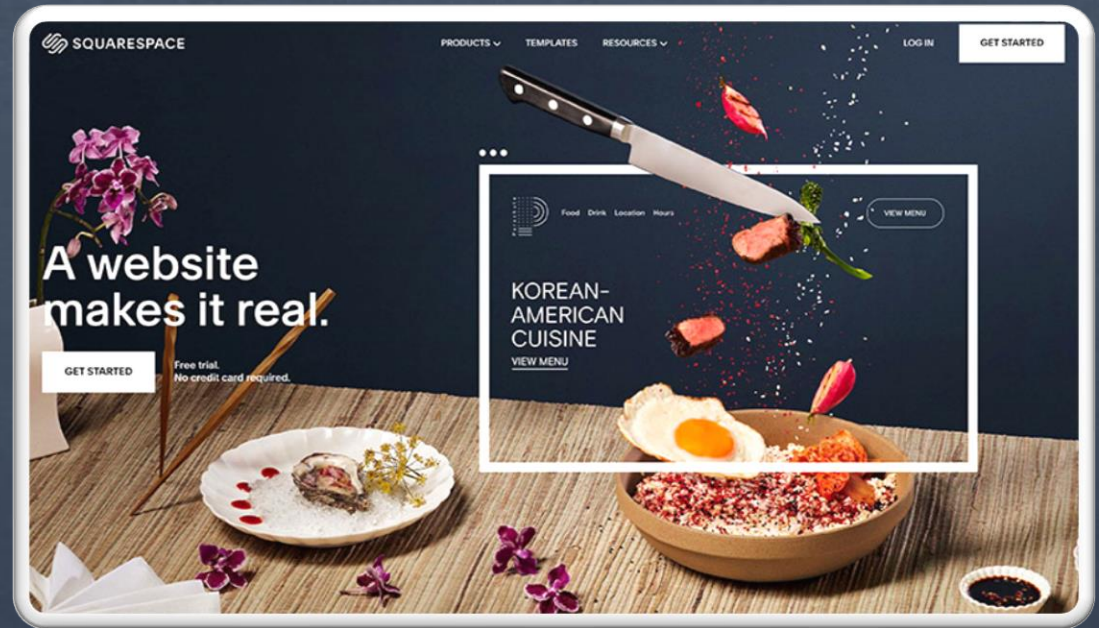

# Squarespace (CMS)

Squarespace, Inc. is an American website building and hosting company which is based in New York City, USA. It provides software as a service for website building and hosting, and allows users to use pre-built website templates and drag-and-drop elements to create and modify webpages.

In 2004, Anthony Casalena founded Squarespace as a blog hosting service while attending the University of Maryland, College Park. He was its only employee until 2006 when it reached \$1 million in revenue. The company grew from 30 employees in 2010 to 550 by 2015. By 2014, it raised a total of \$78.5 million in venture capital; added e-commerce tools, domain name services, and analytics; and replaced its coding backend with drag-and-drop features. It began trading on the New York Stock Exchange on May 19, 2021. According to W3Techs, Squarespace is used by 1.9% of the top 10 million websites.

# Pros and Cons of Squarespace

## Pros

1. There are many templates offered that are ready for publication.
2. Most Squarespace templates rely on photography.
3. The backend design is easy to use.
4. It's an all-in-one platform.
5. Squarespace is offered in a bundled approach.
6. Customer support is always available with Squarespace.

## Cons

1. There is no phone support.
2. Pricing is more expensive with Squarespace.
3. There is an overall lack of advanced marketing tools.
4. There is no support for third-party apps, plugins, or extensions.

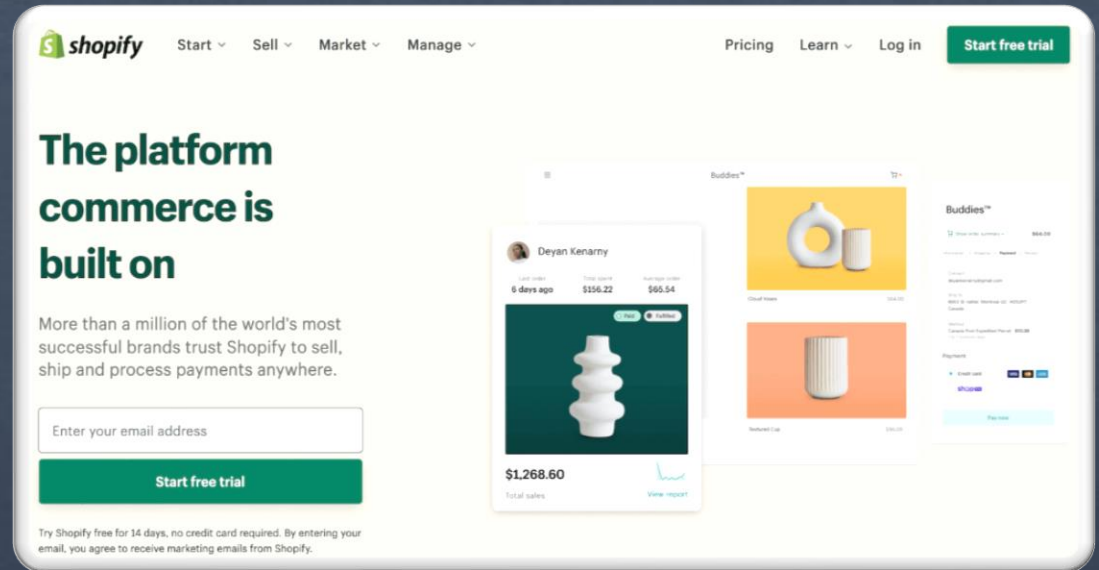

# Shopify (CMS)

Shopify Inc. is a Canadian multinational e-commerce company headquartered in Ottawa, Ontario. It is also the name of its proprietary e-commerce platform for online stores and retail point-of-sale systems. The Shopify platform offers online retailers a suite of services including payments, marketing, shipping and customer engagement tools.

The company reported that it had more than 1,700,000 businesses in approximately 175 countries using its platform as of May 2021. According to BuiltWith, 1.58 million websites run on the Shopify platform as of 2021. According to W3Techs, 4.4% of the top 10 million websites use Shopify. The total gross merchandise volume exceeded US\$61 billion for calendar 2019. As of 2022, Shopify is among the top 10 largest publicly traded Canadian companies by market capitalization. Total revenue for the full year 2021 was US\$4.611 billion.

# Pros and Cons of Shopify

## Pros

1. Simplicity
2. Available Support
3. Lots of Themes
4. App Store
5. Ease of Marketing
6. Customizable
7. Ability for Growth
8. Fully Hosted Platform
9. Miscellaneous Perks

## Cons

1. Price
2. Customization Limitations
3. Conclusion
