

Nova Scotia Tourism Accommodations

April 2022

Tourism Nova Scotia gathers and reports tourism statistics on behalf of the tourism industry. These statistics reflect the combined efforts of tourism businesses, organizations, communities, and governments, and include activities by both Nova Scotians and non-resident visitors. There are many factors that contribute to tourism industry performance including events, weather, gas prices, air capacity, currency fluctuations, geo-political circumstances, and industry initiatives, such as marketing. Tourism Nova Scotia is just one organization among many contributing to tourism growth. We support tourism growth through marketing in key national and international markets, support for experience and business development, and visitor servicing.

Definitions

ACCOMMODATION ACTIVITY

Accommodation Activity is available provincially, or broken-down by the seven tourism areas.

Room-Nights Sold: Estimated number of units sold each month based on reports submitted by registered fixed-roof accommodations participating in programs offered by Tourism Nova Scotia. A unit is normally one room. However, a cottage or suite containing two bedrooms or more is considered one rentable unit. At least 85% of registered units available in each region must report before releasing the estimated room-nights sold. Estimates use the occupancy rate of the reporting properties to project room-nights sold for all available units.

Occupancy Rate: The percentage of estimated units that are occupied (sold) out of those available in the province. This rate is based on reports submitted by registered fixed-roof accommodations participating in programs offered by Tourism Nova Scotia.

Data includes Nova Scotians and people staying for non-tourism purposes.
