## TARGET TRAVELLER SEGMENTS

The Explorer Quotient® (EQ) traveller segmentation approach helps identify and understand why people travel, why different types of travellers seek different experiences, and how tourism operators can engage with visitors based on their travel preferences. Tourism Nova Scotia has identified three key target traveller segments. While all three groups are interested in Nova Scotia's local food, seek authentic experiences, and enjoy natural beauty, traveller segments differ in how they prefer to experience these elements. Operators can consider how these target segments are attracted, or could be attracted, to their business.
